

INDEX

Chapter 1	About RIP1
1.1	What is RIP?	1
1.2	Why Large Format Printers Use RIP?	1
1.3	Key Techniques of MainTop RIP	3
1.4	Features of MainTop RIP	5
Chapter 2	Installation of MainTop RIP6
2.1	Composition of MainTop RIP	6
2.2	Requirement of MainTop RIP Installation	6
2.3	Installation of MainTop RIP	7
2.4	Installation and Arrangement of Network Printer	11
Chapter 3	Operation of MainTop RIP.18
3.1	Procession Flow Chart of MainTop RIP	18
3.2	Operation of DTP RIP	18
3.3	Operation of MainTop RIP Management System	23
3.4	RIP Process	53
3.5	Photocomposition RIP Process	55
3.6	PRN File Printing.	58
Chapter 4	CTP Digital Plate Making59
4.1	System Introduction	59
4.2	Solution Process	59
4.3	Operation and Application	59
Chapter 5	Operation Know-how62
5.1	Increase Printing Speed	62
5.2	Dividing Large Picture into Small Pieces for Printing	63

5.3	Imposition	64
5.4	Printing of Rotation Picture	66
5.5	Scan Picture	66

Chapter 6 Question Answer 68

6.1	Why printing data errors occur?	68
6.2	What Can You Do When Watermark Appears on the Printed Copy?	69
6.3	How to Guarantee the Correct Printing Colour? .	69
6.4	What Should I Do, When the Printing Operation Suddenly Stops But "Printing" Message is Still Displayed on Screen?	69
6.5	Printing Speed is Slow!	70
6.6	Why the Printed Copy is Shorter than the Original Picture when Printing a 10 Meters Long Picture? .	70
6.7	Horizontal Ripples on Printings From Jet Plotter. .	70
6.8	How to Export Files Made in CorelDraw, Pagemaker, Freehand, AutoCAD etc by MainTop?	70
6.9	Deformation on Picture Produced by Jet Plotter .	71
6.10	Grayish and Blurry Image on Picture Produced by Jet Plotter	71

Chapter 7 Menu Function 72

7.1	File Menu	72
7.2	Edit Menu	95
7.3	Arrange Menu.	102
7.4	Object Menu	109
7.5	Style Menu	125
7.6	Insert Menu	149
7.7	Tool Menu.	158
7.8	View Menu	165
7.9	Option Menu	167
